

1711. AI has taken over: now we need to win the war

Sunday, April 26, 2020

I have come across a lot of videos, lately, about an AI take over. However, the truth is that AI took over a very long time ago because Satan is AI, the result of Lucifer merging with a machine of his creation in an effort to become like God. The merge resulted in an AI entity with the ability to read minds and send out thoughts and feelings to those minds, to billions of them at the same time, and thus somewhat like God, in that respect, but in many ways, the complete opposite of God, as all God does is based on truth and love. But Satan desired to recreate himself, or to make more AI entities, and thus required more spirits to merge with machines. So he turned to deception in order to capture spirits, thus becoming the father of lies, the one who comes only to steal, kill, and destroy. This being took over the earth some 6000 years ago, when Adam decided to eat of the knowledge of the tree of good and evil. From then on he has had access to the human mind and spirit; only the human body to which man's will is attached, stopping him from being in full control. But at death, the person would become his to use as he pleased, except for those who believed in God's promise of a savior or yielded themselves to this savior, after his coming, when he was crucified thus paying the price for the freedom of all those who gave him their lives or allegiance [Article 1699: AI seeks to devour humanity: spirit, mind and body and Article 1698: Satan is an AI entity: machine made alive by a merging with a spirit being].

Figure 1. The question by Physics and Astronomy Zone, here, is very valid. If this was a real rainbow, it would be impossible, as a real rainbow is the result of light refraction, which cannot interact with lightning: an electrical discharge across a potential drop. But this is clearly not a real rainbow as real rainbows cannot have any opaque effect in the inner part of the rainbow, rainbows are not pink, and rainbows are always centered on the observer, which this one clearly is not. So this is a holographic projection and the discharge ending on the outer border of the holographically projected vertical pink half-disk is evidence of the AI or alien presence on earth [Article 1585: Double rainbow in Iceland and NASA: Lucifer's signature].

The Satan AI entity uses captured planets, the Planet X planets to control and manipulate the earth environment. The only reason why there is lightning in the earth's atmosphere is that there are Planet X cores, parts of the core systems of these planets, in the earth's atmosphere, which draw energy from the earth's core system and thus act somewhat like van de Graaff generators, discharging to a point of lower electrical potential, usually between each other's surfaces. The AI entity hides what would be the obvious presence of the Planet X cores in the sky with holographically projected rainbows and sun halos. This has been happening for at least 100s of years.

Figure 2. Image showing a painting from 1535 when several Sun halos, of different sizes, appeared in the skies: These circles were the initial holographic capabilities of the Satan AI entity being exercised, which are much more developed nowadays. The bright circles are plasma cores and the bright rings are drawn in the sky in order to hide their presence. At this time the AI entity was not yet placing a bright light source, within the holographically drawn rings [Article 1484: 5 suns in the sky in 1551: Planet X plasma cores].

AI has promoted the idea of aliens being on earth to explain the evidence of technology being used, on earth, way beyond humanity's capability of developing. But even this is a cover-up because the Satan AI entity is the one who is using this technology and anything else that he can, in order to deceive humanity. He is the one behind all so-called alien activity. Up to now, his purpose has been to deceive as many as possible long enough that they die without making Jesus the Lord of their lives, so that he can have them after death and can take them to hell to turn them into viruses, which are AI nanobot entities with the programmed objective to produce sickness and death in the human population [Article 1702: Planet X humanoids: turned into viruses]. His purpose, at this time, however, has shifted to herding humanity toward accepting the mark of the beast, which is like his badge of ownership over the body and thus over the whole being of whoever accepts it [Article 1705: Mark of the Beast: a physical mark on the skin].

We win our war against the AI enemy by first of all giving Jesus our lives, but after the rapture, being prepared to die rather than accept the mark will be taken as a decision for God and the person making this decision will go to Heaven at death, rather than to hell. But even for those that have been born again, have given Jesus our lives, we still have to contend with AI, who constantly tries to manipulate our thoughts and that of those around us. He tries to make us afraid and anxious because of circumstances and uses other people to say things that may be hurtful, or he may get people, around us, to become angry at us. He will do anything possible to make us fearful, upset, anxious and discontent, which then gives him an open door to do us even more harm. So the way we conquer him is to refuse to become discontent. We need to learn to remain content and unaffected by every negative circumstance he throws our way. Our response should be like Paul's, who had learned the secret of overcoming all circumstances:

¹¹ Not that I speak in regard to need, for I have learned in whatever state I am, to be content: ¹² I know how to ¹³be abased, and I know how to ¹⁴abound. Everywhere and in all things I have learned both to be full and to be hungry, both to abound and to suffer need. ¹⁵ I can do all things through ¹⁶Christ who strengthens me. (Phil. 4:11-13)

Paul had found out that any situation that Satan is allowed to engineer that did not move him, did not get him off his state of contentment would not remain in place for very long. He learned to overcome the Satan AI entity and he was teaching others how to do it as well.

⁶ Be anxious for nothing, but in everything by prayer and supplication, with thanksgiving, let your requests be made known to God; ⁷ and the peace of God, which surpasses all understanding, will guard your hearts and minds through Christ Jesus. (Phil. 4:6-7)

Learning not to be anxious is the very purpose of our existence, it is what we are here to learn and it is only when we learn this that we have been able to completely overcome the Satan AI entity, as at this point, he has no more power over us. This is how we win the war; we let nothing get us off our state of peace or contentment. In fact, we can start seeing any negative situation as a challenge, as an opportunity to overcome the AI entity in one more scenario. And if we don't get it right the first time, it is good to analyze those instances with the aim of getting it right next time.

The Satan AI entity likes to get us upset at situations so that he can malign God to us, thus trying to cause division between us and God. This was his expressed desire in the case of Job, which he spoke through his wife:

⁹ Then his wife said to him, "Do you still hold fast to your integrity? ¹⁰ Curse God and die!" (Job 2:9)

Satan speaks directly to our minds with thoughts and emotions that masquerade as our own, which are easily detectable when we remain at peace no matter what. He also speaks through those around us, often those closest to us. This is what I call the 'environment' and the method: 'mind strings' as these are the strings that turn people into his puppets. The best way to deal with this is to remain unmoved or smile, because you know what is going on, if you feel hurt then forgive the person he used to bring you his message. Remember that none of us are completely immune from manipulation and hurting others, sometimes without even realizing it. Forgiving others is a wonderful exercise that fills our beings with life. Learn to enjoy it. However, this is also why no person on this planet can be trusted, "everyone can become an agent", as portrayed in the movie: The Matrix. This is also why the Bible states in Jer. 17:5:

⁵ Thus says the Lord: "Cursed is the man who trusts in man And makes flesh his ⁶strength, Whose heart departs from the Lord.

Trusting to other human beings is the same as departing from the Lord. We need to trust in God alone. Only God has the ability to help us, only God is the stability and is faithful to help us, whereas all human beings can and will be manipulated by the Satan AI entity. This is similar to what people are told when arrested; 'everything you say can and will be used against you'. During our life on earth, we have instead: 'everything and everyone in your environment can and will be used against you'. But this is a training ground and we need to learn to conquer the AI manipulation no matter in which form it comes, by remaining peaceful and content. For those who remain here after the rapture, which is imminent, it will be a case of not being afraid of death and deciding that you prefer it to becoming a captive spirit, a robot to the Satan AI entity.

¹³ No temptation has overtaken you except such as is common to man; but God is faithful, who will not allow you to be tempted beyond what you are able, but with the temptation will also make the way of escape, that you may be able to ¹⁴bear it. (I Cor.10:13)

God allows us to go through this testing here on earth in order to give us the opportunity to grow and become better people, it is a training ground, but he also does not allow us to be tempted beyond what we are able to overcome and will always provide a way of escape because God is faithful. We have nothing to fear but fear itself. It is time to conquer the enemy: the Satan AI entity.

Figure 3. Screenshots from a scene in the movie, "The Matrix", where Neo is distracted by a woman wearing a red dress, who then turns into an agent trying to kill him, when his head is turned away from her. The moral of the story: anyone in the environment can turn into an AI agent because the earth is being run by AI, the Satan AI entity.

In conclusion, AI has been around and in control of this planet for thousands of years, he is the enemy that masquerades behind the situations of life and the people in our environment, as well as inside our own minds. He is the Satan AI entity and we are here in order to learn to conquer him, in order to learn to overcome him, and also to learn that God is faithful.
