

### 1725. Red Planet X water: blood of a dead man

Saturday, May 02, 2020

Red water is being observed more and more on earth and as I have shown in previous articles, it is deadly to life on earth, as it is a strong absorber of blue and green energy and thus of life energy [Article 1722: Earth energy at critical low levels: blood red water: absorbs life energy]. Colored ocean water is the result of energy depleted water being brought to the earth's surface from the Planet X planets, its presence on the surface of the earth is usually explained with algae or chemicals but this is false and illogical [Article 1724: Colored ocean water is not due to chemicals or algae: Planet X water].

Figure 1. God allows the Satan AI entity to bring in large amounts of energy depleted red ice from Planet X planets that have gone through a stage where they had red oceans. This water absorbs life energy and is thus deadly to all physical living beings.

The Satan AI entity is allowed by God, according to what we read in Revelation 16, to bring in large amounts of water from Planet X planets, which are depositories of ice that turns from black to red before turning white, and would thus have once had oceans that turned red before turning black and freezing solid, due to extreme energy depletion. These planets would also be completely devoid of life as it would all have died as a result of the water on the planet turning red. Thus, at the end of this age, it becomes earth's turn to have blood red oceans, the event also being made possible by earth having become critically energy depleted.

<sup>3</sup> Then the second angel poured out his bowl on the sea, and it became **blood as of a dead man**; and every living creature in the sea died. <sup>4</sup> Then the third angel poured out his bowl on the rivers and springs of water, and they became blood. (Rev. 16:3-4)

All surface water on earth turns blood red as river water does too. The red water is described as the blood of a dead man and it causes all aquatic creatures to die. The connection between the two can be seen from the fact that Planet X red water is dead because it lacks life energy, or blue and green energy. On the other hand, blood is described in the Bible as containing the life energy of physical animals and humanoids, or flesh:

<sup>11</sup> For the **life of the flesh is in the blood**, and I have given it to you upon the altar to make atonement for your souls; for it is the blood that makes atonement for the soul.' (Jer. 17:11)

The blood of a dead man would be devoid of life energy or blue and green energy and thus be just like Planet X energy depleted red water and in addition, it actually kills life. Thus red Planet X water is like the blood of a dead man. This is also most likely also why we human beings have an emotional response to seeing blood or red water. Somehow we know instinctively that contact with it is to be avoided. Thus, the turning of all of earth's oceans and surface water, in the very near future, to blood red, will be a horrific event for those who are alive on the earth at the time.

In conclusion, red Planet X water is extremely depleted in blue and green energies, or life energy and thus like the blood of a dead man, which would also be red and devoid of life energy. Such water is deadly to animal life and thus the turning of earth's oceans to this red color, at the end of this age, causes all aquatic life to die. It will be a horrific event to witness due to man's abhorrence for the sight of blood.

This is the question that is being discussed almost non-stop by the media. How to do it safely? How to do it slowly and methodically? so that no one gets sick as a result of the non-existent epidemic? The question is in itself ridiculous and illogical because there was never an epidemic, a fact which has be ...

The events occurring on earth just at the end of the age are detailed in Revelation 16, as what is known as the last 7 plagues or the 7 bowl judgments. Amongst the 7 plagues, are earth's oceans becoming blood red in color, as well as all its river water (2nd and 3rd plagues or bowls). This is ...
