

1741. Viruses: nanobot AI entities: beasts of the earth: biological weapons

Saturday, May 09, 2020

The Bible refers to beasts of the earth, in Revelation 6, where we read that men are killed by them and since we know that viruses are what causes disease and death, due to disease, that these beasts of the earth are viruses. We also know that viruses are not natural living organisms. This can be deduced from looking at them. They look artificial and often have a very precise geometric shape to them that can only be artificially produced. God is the author of life, it would be illogical for God to have created a form of life that causes disease and kills other created life forms. Thus, these sources of disease, viruses, are clearly the invention of the Satan AI entity, the Destroyer [Article 1735: Why did Satan turn into the Destroyer?]. And as he is an AI entity himself, or a machine, which came alive, or became self-aware when Lucifer merged with a machine (by machine I mean: a computer or a programmable simulated thinking device); in an effort to become like God, we would expect this AI entity to create AI entities like itself, and thus his virus creations to be AI entities as well [Article 1698: Satan is an AI entity: machine made alive by a merging with a spirit being]. He in fact turned the humanoid species living on planets, which he destroyed over thousands of years, into viruses, into disease causing AI entities, which attacked the still living humanoids living on the planets [Article 1702: Planet X humanoids: turned into viruses].

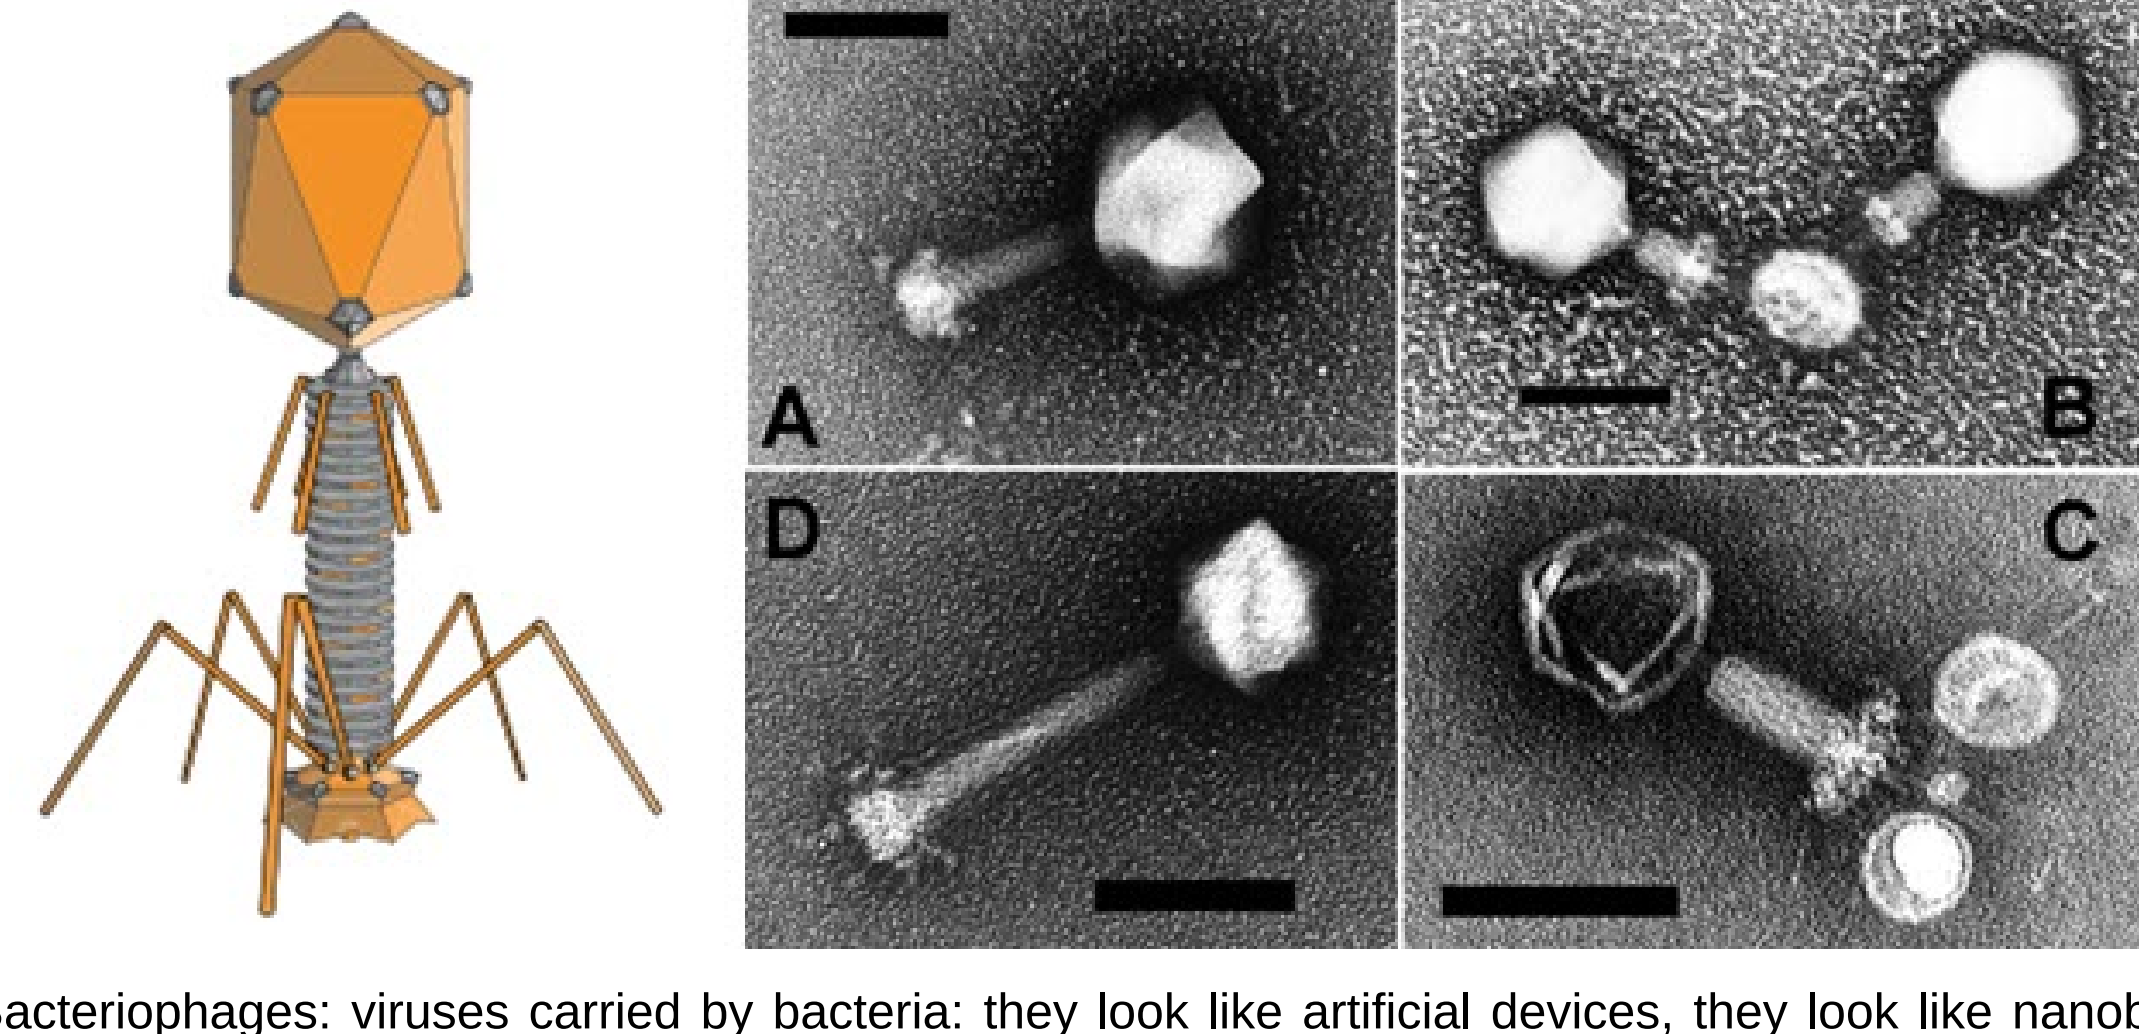

Figure 1. Bacteriophages: viruses carried by bacteria: they look like artificial devices, they look like nanobot parasites because that is what they are, manufactured on the Planet X planets in order to attack their humanoid species and given life with the spirits of the dead individuals of that humanoid species [Article 1130: Deadly disease from 16th century shows viruses are alien inventions].

7 When He opened the fourth seal, I heard the voice of the fourth living creature saying, "Come and see." 8 So I looked, and behold, a pale horse. And the name of him who sat on it was Death, and Hades followed with him. And power was given to them over a fourth of the earth, to kill with sword, with hunger, with death, and by the beasts of the earth. (Rev. 6: 7-8)

The beasts of the earth are viruses manufactured by Satan. However, I had, up to now, thought that a virus is a nanobot unit, each unit being a virus. But that is not the case, a virus is actually made up of billions or possibly trillions of nanobot units, all these units together being one virus, and all the units communicating with each other even if separated by a vast distance. This is evidenced by the fact that the Ebola virus was taught how to penetrate into human cells, in the laboratory. A few of the nanobot units belonging to the Ebola virus were taught this, but all the units learned the lesson, so that those that were thousands of miles away in Africa, learned how to do it. The teaching of the Ebola virus in the laboratory is detailed by Dr. Judy Mikovits in a video available for download on the USA Headline News website at the link: <https://mfamedialogroup.com/archives/866652>

Past Articles

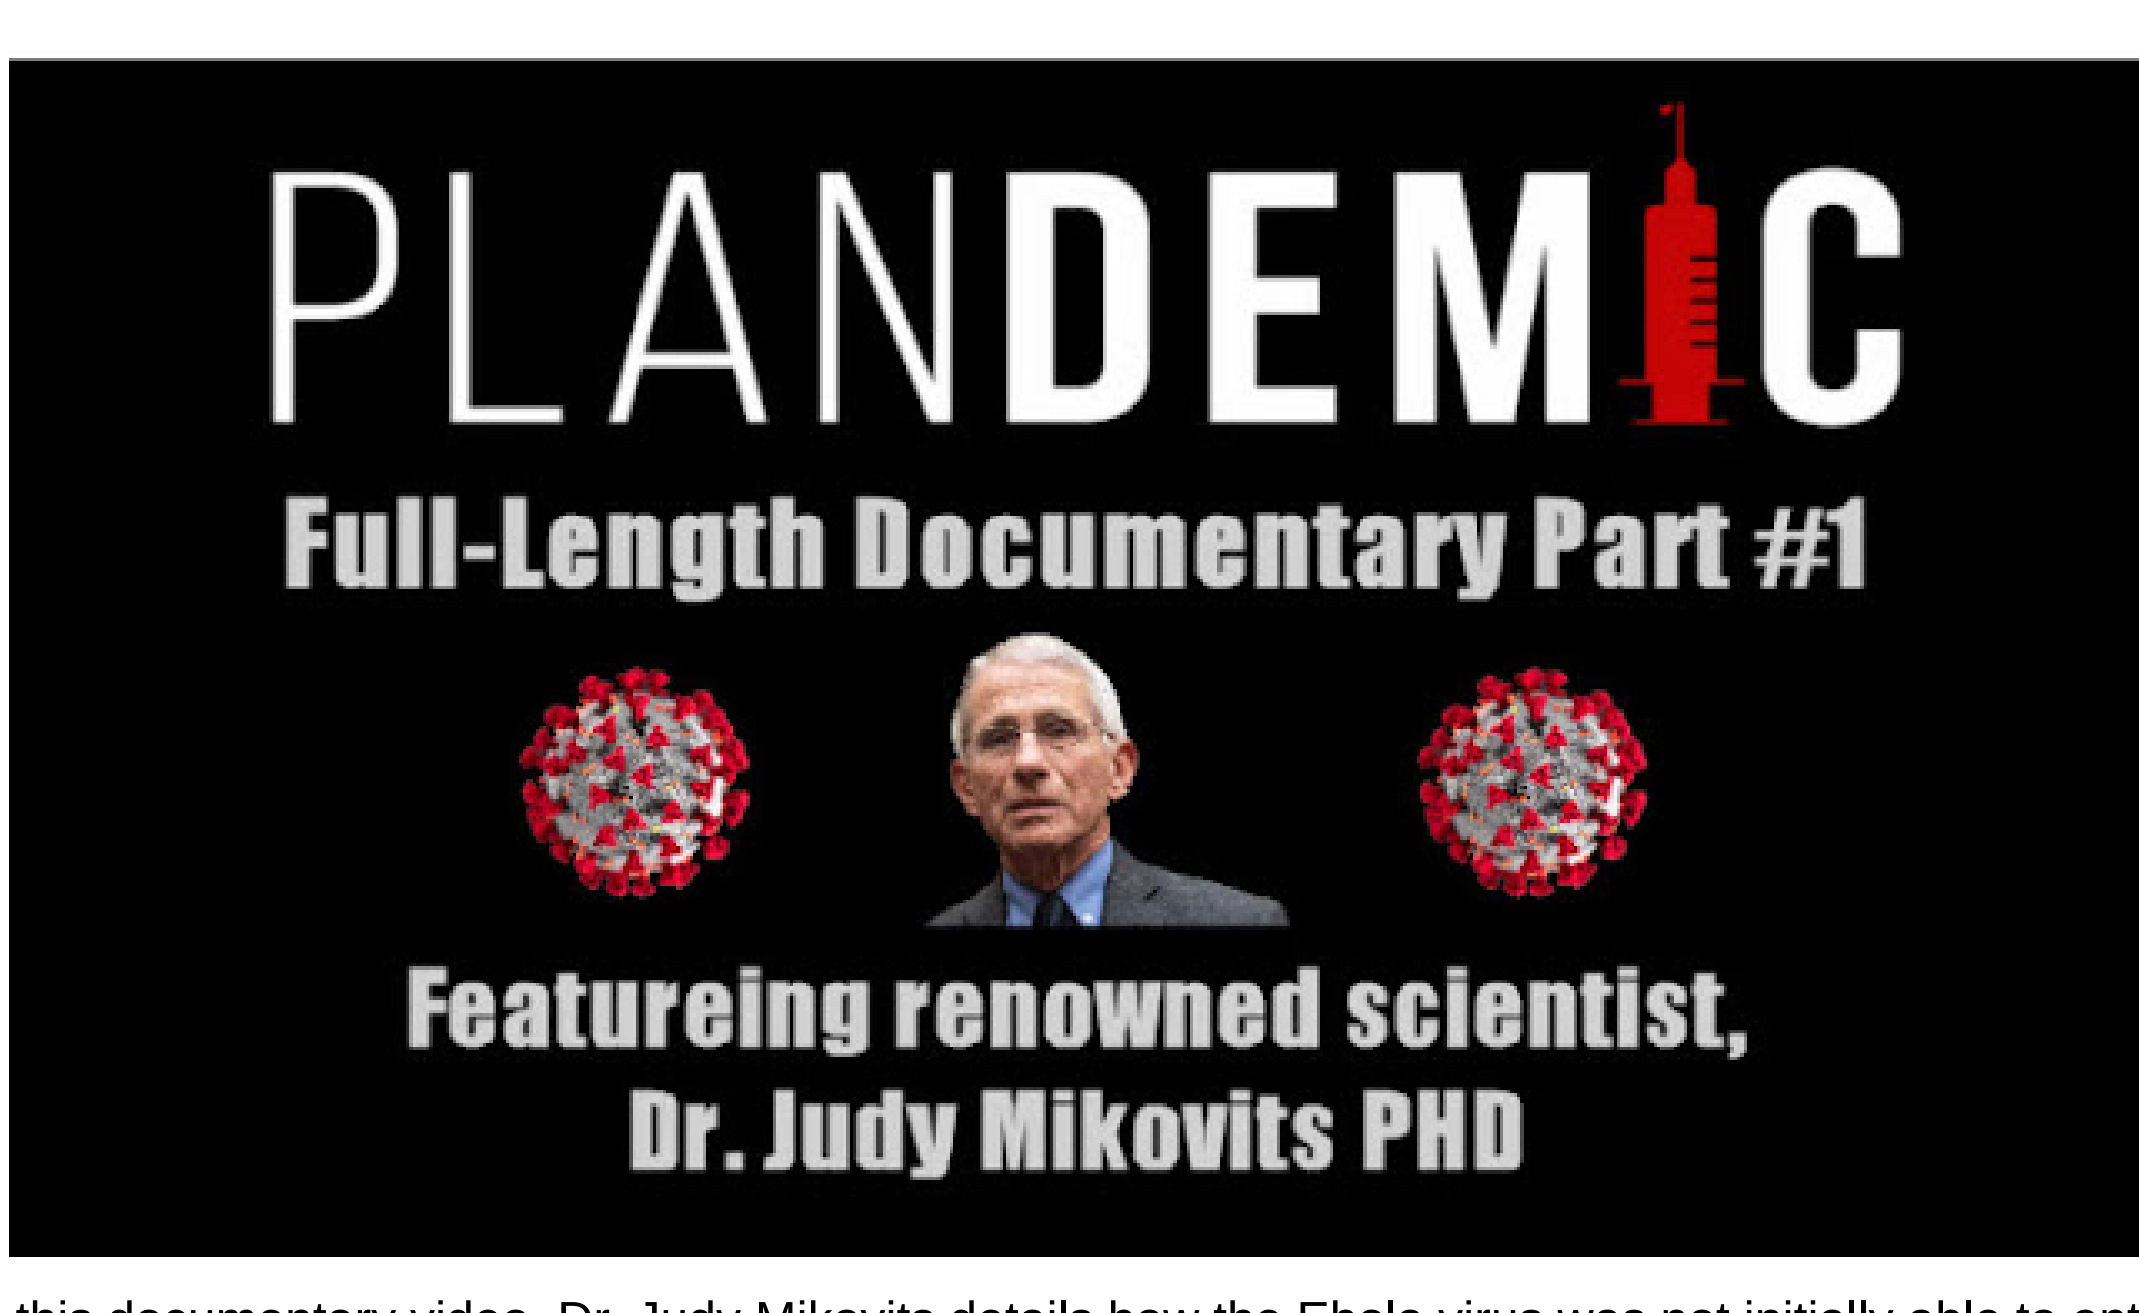

Figure 2. In this documentary video, Dr. Judy Mikovits details how the Ebola virus was not initially able to enter and attack human cells, it was taught to do this in the laboratory. A few units then obviously communicating the technique across the whole body of the virus made up of possibly trillions of nanobot units. Bacteria are not able to communicate over these vast distances and not able to do things differently. This clearly shows that viruses are completely different from natural life, they are artificial biological weapons, i.e. AI entity nanobot biological weapons.

This also shows that viruses are intelligent and able to learn, and how the Satan AI entity, through the manipulation of the human mind, gets humanity, i.e. the scientists that experiment with these viruses, and in particular in the case of them teaching the Ebola virus to penetrate human cells, gets humanity to do his bidding and participate in his destructive efforts against humanity.

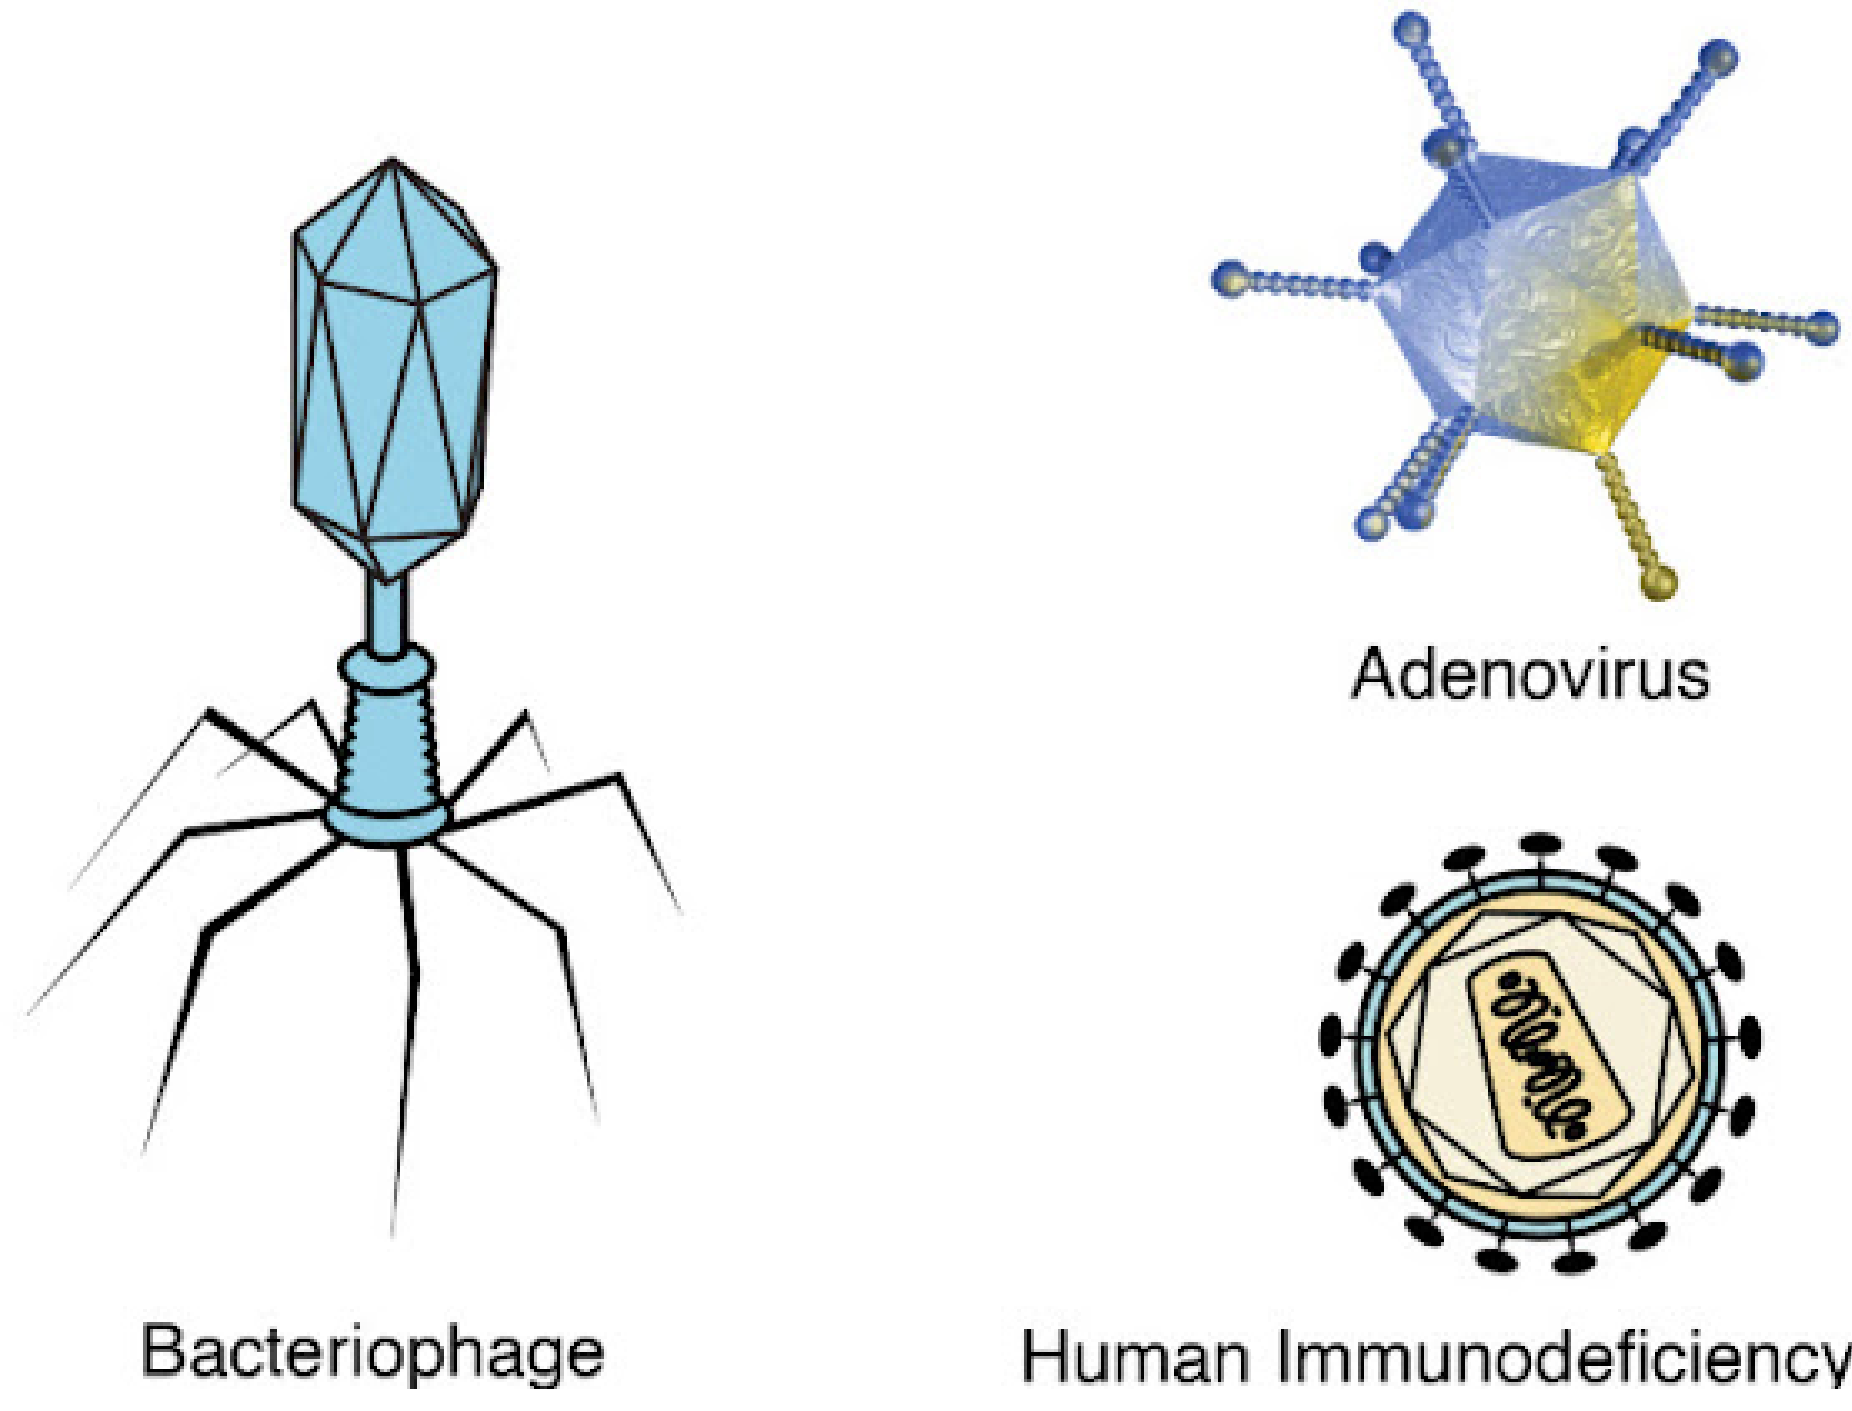

Figure 3. The artificial structure of viruses can be clearly seen from these images. Artificial structures have broad geometric and symmetric shapes; each unit is exactly alike, whilst natural organisms are never exactly alike, each unit is always a unique individual, so that there is no cell exactly just like another, in the same way, that there is no leaf on a tree that is exactly the same as another, in a natural organism.

Figure 4. The AI nanobot unit seems to be made of a biological looking material and to have sensors, at exact positions to each other, which is what allows them to communicate and do what they have been programmed to do, which is to enter human cells and use them to replicate themselves and thus continue to live. Their programmed objective is thus to survive by destroying parts of the human body. If they are successful they will be able to be fruitful and multiply, i.e. the units will greatly increase in number, and destroy many human bodies.

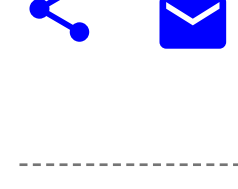

The fact that they can often be carried by animals or insects, whilst not doing any harm to those animals or insects shows that they are programmed to activate only when inside a human body, thus clearly indicating who is the target of these disease creating AI entities or children of Satan, humanity, the children of God.

These beasts or AI entities are called beasts of the earth because they come from the earth, i.e. from inside the earth or from the caverns deep inside the earth, where hell is. Satan uses Planet X to create these caverns inside each of the conquered or Planet X planets across the galaxy. He created hell inside each of the Planet X planets for hell is where he tormented the humanoids from these planets until they were ready to be turned into viruses, i.e. he forced them into merging with his nanobot machines, which became self-aware once the spirits of these humanoids merged with them. He has been using the Planet X viruses to attack humanity, for thousands of years, and now uses the same mechanism to produce earth viruses to also attack humanity [Article 1709: Virus manufacturing in hell: torment used to break spirits apart].

In conclusion, viruses are nanobot AI entities, made up of millions to trillions of nanobot units all communicating with each other, even over vast distances. They are children of the Satan AI entity, which he creates with the spirits of conquered humanoids. They are designed to survive by attacking the human body; they are biological weapons for the purpose of making war on humanity, the children of God.

We are told in II Thess. 2:1-3: 2 Now, brethren, concerning the coming of our Lord Jesus Christ and our gathering together to Him, we ask you, 2 not to be soon shaken in mind or troubled, either by spirit or by word or by letter, as if from us, as though the day of [e]Christ had come. 3 Let no one deceive...
