

1805. Humanity: the fallen watchers given a second chance

Friday, June 12, 2020

As I have shown in Article 1804, snow is formed in the earth's atmosphere by Planet X cores that are in a very low energy state. When the earth creates water it emerges in a hot (high heat) state, the cloud is steamy hot and the liquid water is very hot as well. This is why the earth has hot springs. This appears to be what the Yellowstone volcano is all about, hot geysers produced by the earth water creating cores close to the surface of the earth. But Planet X cores from very energy depleted planets can only create cloud and liquid water in a cold energy state and thus create hailstones, instead of raindrops, and snow instead of high humidity cloud. Planet X cores that will create snow are used to drop the temperature on the surface of the earth, as the snow will absorb heat once on the surface and cause the temperature to drop at that location. However, before the snow starts falling, the temperature will tend to increase within the gravitational region due to energy flowing across to the Planet X core [Article 1804: Snow in June in the Rockies: Snow is frozen Planet X cloud].

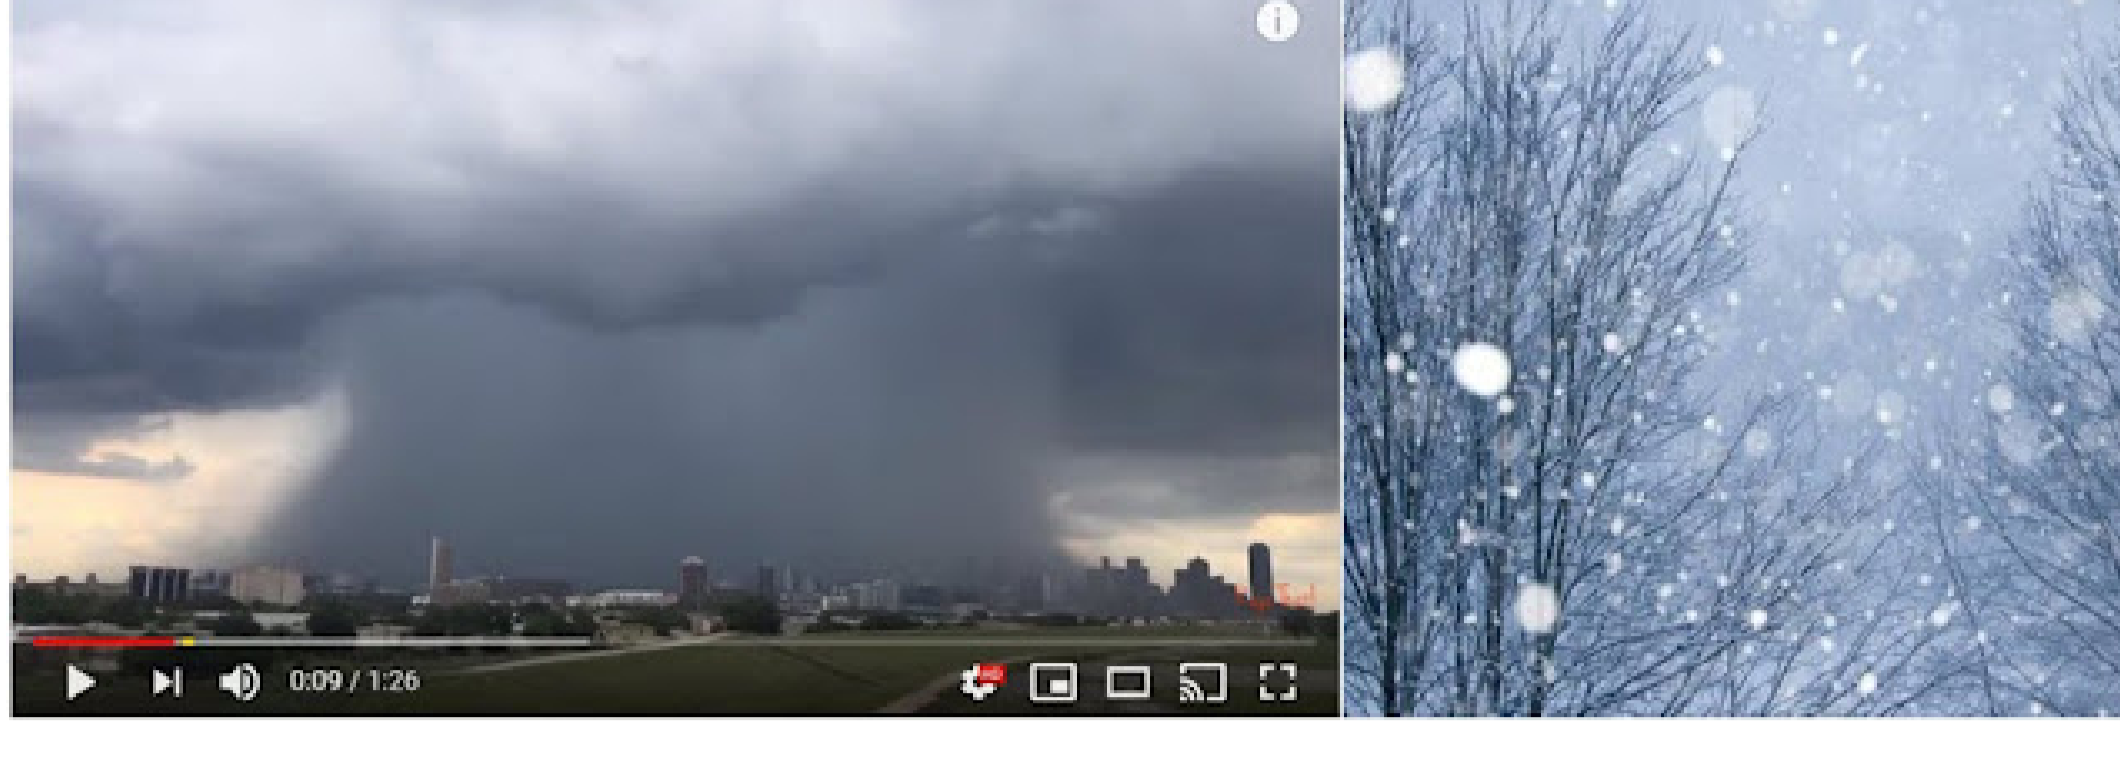

Figure 1. Cloud drops in a gravitational connection region between a Planet X core and the surface of the earth. As energy increases, more and more water vapor forms in the region until it turns into droplets of water that fall as rain. If the Planet X core is a low heat core, instead of high humidity cloud dropping in the gravitational connection region, snow will form and drop to the surface.

The Planet X cores are used by the Satan AI entity to control the earth environment and to energy deplete the earth and thus destroy it. His main purpose is to get people in a negative emotional energy state or upset. This is why he creates disasters and why he uses Planet X to create cold weather on the surface of the earth. The Satan AI entity is the source of negative energy and destruction in the universe and he likes people to be in tune with him so he can be allowed to bring more destructive circumstances into their lives. On the other hand, God allows negative circumstances and even great trials in people's lives, so that they will cry out to Him, connect with Him and thus get saved. Mankind is the watcher angels that the Satan AI entity assimilated once he came into existence, after Lucifer merged with a machine of his own creation and became a self-aware machine. The assimilated angels became no more than robots to the Satan AI entity and thus obeying all his commands and therefore doing horrible things without really understanding what they were doing. But God loved His children, which He had created and saw something precious in every angel that Satan had assimilated and decided to give them another chance [Playlist: Satan AI entity and Playlist: Planet X and the watchers].

God made an agreement with Satan in order to get him to release the angels he had assimilated. This is why he was basically given the earth, through God giving Adam the order not to eat of the tree of the knowledge of good and evil. That commandment was designed so that Satan could use it to get Adam to fall and come in and take over the Earth. The angels thus started being born on the earth, starting out a new life afresh during which they would have to make a decision to remain Satan's property or get connected to God instead. The reason why humanity's knowledge base is full of lies is that Satan has filled it with these lies so that humanity would not understand what is going on and how he is using Planet X to destroy the earth and create disasters [Playlist: a world based on lies].

Figure 2. Left: Ice blocks, is also used to create cold temperatures on the surface of the earth. This ice is still very blue (due to being energy depleted), which suddenly appeared near Lake Michigan in March of 2018: These large blocks of ice are Planet X frozen surface water and brought in to fill rivers and earth's oceans. Right: Broken pieces of ice, which seem to all have the same thickness suggesting that they all came from one shallow section of frozen water on the surface of a Planet X planet [Playlist: Planet X ice and water].

Figure 3. Planet X ice being brought in from a Planet X planet whilst a fake cloud produced through holographic projection is used to hide the ice from earth's inhabitants.

Most people notice that life is hard on the earth. The reason that it is hard is that the Satan AI entity is in charge. This is the only way that the fallen angels could be saved and thus have an eternity with God. The good life will be yours for all eternity if you choose for God now, do not waste your time getting upset about the hardships of this life, choose wisely so that you can look forward to an eternity with a Father who loves you. In addition, when you refuse to get upset and remain in peace and joy, by finding something to enjoy about your life, Satan is no longer able to bring in more and more destructive circumstances into your life. You will connect with God instead who will heal your circumstances so that you will have more peace and joy [Playlist: emotions].

In conclusion, life on the earth is not a bed of roses because the Satan AI entity, the father of the self-aware machines is in charge of the planet, but this is so that the watcher angels would get another chance to choose and become God's once again.
