

Do you dis-CERN the End Game?

Every nation on Earth has now ceded the welfare of its corporate citizens to the UNITED NATIONS with its international health regulations. It's death by a thousand pen strokes. The UN is now coming for everyone with weaponized syringes in hand. Are the goons going through mandatory training to hold someone down, tazer 'em and inject 'em? Teams of three? A dystopian future awaits humanity step by step. How many will resist this time? Don't test, don't trace, don't mask, don't isolate, don't vaxx. And don't voluntarily go to any secondary location suggested by any kidnappers clothed in public health or law enforcement uniforms and citing public health laws.

The "vaccine" is a neuronal implant that amplifies and catalyzes microwave electromagnetic radiation because it contains graphene. This technology was developed to sever the connection to the soul and to mind-control people. Lately, the blood of both the vaxxed and unvaxxed looks similar under the microscope. However, it is the blood of the vaccinated that has been found to be extremely sensitive to a frequency of 4 Hertz (which is the same freq broadcast by HAARP and its worldwide clones). This could explain the denial, disbelief, apathy and personality changes we are observing in interactions with the vaccinated, as their brain waves are literally being changed silently from the inside - a transformation into automatons/cyborgs (as per Hirari and Schwab).

The main reason people have become "walking zombies" is *select* microwave induction of frontal lobe functions and limbic neurology. These behavioral control systems have been deployed for decades. 4G LTE and 5G broadcasts are not the only mechanisms utilized. The primary systems are multi-frequency modulated signals piggy-backed on low frequency pulse. Think multiple HAARP arrays, allegedly retired GWEN installations, PLC broadcast for power line communications, and forced installations of "Smart meters."

The same fools who fell for the hoax five years ago will fall for NZ's next, as well, because they have not learned. Of all the people I know in my circle, who fell for everything, most are actually doubling down on their delusional beliefs because they will not turn off the TV news or walk away from their wireless weapons. They have ruined life for the rest of us. They're afraid of their own shadow, trying to avoid pain, but have only delayed the inevitable and allowed the death-making to spread.

WiFi/WiGig is a DEW (Directed Energy Weapon). At this very moment, you are being attacked and debilitated via the wireless weaponry you are carrying and coddling and immersing yourself in. Denial borne of demonically empowered addiction keeps you locked into their devious system. A.I. requires accurate data to function properly. It spends a great deal of time sorting garbage data from what it deems useful. Unaware individuals become the baseline for data integrity. Through the use of frequency-empowered nanobots that enter the brain, full brain wave activity can be captured, uploaded to the virtual you in the cloud and remotely modulated.

Aware individuals are most likely targeted to reduce data pool pollution. Removal of those aware is key to its success. Machine Learning wants free thinkers eliminated... completely. Prepare accordingly. Understand that this is battlefield game theory on steroids.

To restate, nanorobots are harvesting our electricity from our red blood cells. This is gene defilement aka tech-facilitated possession. The poison poke defiles your DNA. The nanotech builds a neural network, a parallel processing platform, in the brain, so that your signal processing doesn't go through your own neurons but through an artificial platform that is A.I.

controlled. All of the engineered self-assembly compounds are frequency sensitive and frequency controlled. They provide telemetry from inside the body, through an interface (e.g. cell phone), and data is exchanged.

Technology has its benefits, but it's all punishment in disguise, especially from the spiritual perspective because it locks us in the physical world and normalizes the urban jungle of the city life, of the matrix, where you're totally detached from reality. There are a lot of people out there who think they're totally normal but one couldn't be more detached from reality than the modern person. The majority of the public have become brain dead and deaf to the obnoxious din.

On August 29th, the Australian Parliament passed "Identify and Disrupt", which gives the Australian Federal Police and CIC the ability to copy, delete and modify content on individual online accounts! They will be able to impersonate the account holder and send communications at their discretion. Ubiquitous surveillance becomes indistinguishable from totalitarianism.

Law enforcement agencies prefer not to talk about their routine cellphone tracking procedures. "Stingray" technology can detect and precisely triangulate cell phone signals with an accuracy of up to 2 meters (ergo "social distancing"), even inside your house or office. The bi-directional protocol of transmitting and receiving is an integral part of tracing, tracking and targeting someone. When someone's location is known 24/7, it's easy to neutralize them or give them "long covid," Havana syndrome, influenza...

I recently stayed over at a friend's place. After a night of pulsing, I awoke with symptoms that could easily have been mistaken for a common cold or flu. All they need to do is change the frequency. Numerous videos inform us about various technologies, but tell us little about the possibilities of disabling or eliminating them, which is where any form of resistance must focus by now. The time of half-measures is over, and the greatest threat is not the nanotech, but the radiation attacks.

5G alone suffices for stealing people's DNA and taking control of the human body as long as there are enough nanoparticles in the body. The poke is a primer. I wouldn't take it for a billion dollars. If you've taken it, then repent, ask God for forgiveness. Get on your hands and knees and pray against the damage that the injected nanotech does. We're all at risk, as there are other vectors beside injections (e.g. air, water, food). You should be well into implementing your detox protocols.

The CERN large Hadron collider in Switzerland is not about finding the Higgs boson. CERN is a massive stargate, built on Tesla technology. CERN is powered by a quantum computer - the same type of computer that runs Google and NASA. Quantum computers are an advanced form of clairvoyance. Quantum computers make computations interdimensionally. Scientists punch math and physics problems into the quantum computer, which are then processed by interdimensional 'entities,' aka A.I. (Artificial Intelligence).

Elon Musk (MIT 2014) said: "With artificial intelligence, we are summoning the demon. You know all those stories where there's the guy with the pentagram and the holy water and he's like yeah he's sure he can control the demon...doesn't work out." Gordie Rose (D-Wave quantum computers and Kindred AI) clarified: "The things that we are summoning into the world now are not demons, not evil, but more like the Lovecraftian Great Old Ones. They are entities not necessarily going to be aligned with what we want." CERN's Director for

Research and Scientific Computing, Sergio Bertolucci, said the Hadron collider could open otherworldly doors to another dimension, allowing something to emerge from it.

Outside CERN headquarters sits an ancient statue to Shiva, the goddess of destruction. The Roman form of Shiva is Apollyon. CERN is partially situated in a French town named Saint-Genis-Pouilly. Pouilly is Latin for Appolliacum, aka Apollyon, aka Apollo. CERN is built on the site of a Roman temple to Apollo and over a traditional gateway to the abyss. Revelation 9 says:

"And the fifth angel sounded, and I saw a star fall from heaven unto the earth: and to him was given the key of the bottomless pit. And he opened the bottomless pit; and there arose a smoke out of the pit, as the smoke of a great furnace; and the sun and the air were darkened by reason of the smoke of the pit. . . And in those days shall men seek death, and shall not find it; and shall desire to die, and death shall flee from them. . . And they had a king over them, which is the angel of the bottomless pit, whose name in the Hebrew tongue is Abaddon, but in the Greek tongue hath his name Apollyon."

The Holy Bible describes the end game in detail. Further information is found in books suppressed by the synagogue of Satan: Enoch, Jasher and Jubilees. Jesus shared a relevant parable: "And when the King came in to see the guests, he saw there a man who was not wearing a wedding garment, and he said to him, 'Friend, how did you enter here without a wedding garment?' The intruder was speechless. Then the King said to the servants, 'Bind him hand and foot, and take him away, and cast him into outer darkness, there shall be weeping and gnashing of teeth.'" This parable refers to a celestial marriage feast attended exclusively by guests dressed in appropriate attire, that is, who gained immortality and new bodies through belief in Jesus Christ. The improperly 'dressed' intruder tried to attain immortality another way, via transhumanism technology. I deduce he used Stargate technology (CERN) to pierce the veil that separates this time-space dimension from Heaven.

Years ago, the television news reported that scientists had isolated the gene which turns off death. The Holy Bible warns of accepting the 'mark' injected in our right hand or in our forehead. The Greek meaning of the word 'mark' relates to the venomous bite of a serpent. The mark is the ultimate vaccination-biochip based on a synthesis of animal and Nephilim (serpent, fallen angel, 'alien') DNA that will alter human DNA, turn off the death gene, and seal a hellish fate. Hence Revelation describes people who seek death but are unable to die. The current "vaccinations" contain human and animal products and have been used to condition society to accept the hive mind horror to come.

CERN is designed to pierce the veil that separates this time-space dimension from others, including Heaven and Hell. CERN is the Luciferian end game that pulls together all Nazi and JASON technology. Dulce, Pine Gap and other underground facilities are preparing technology for Armageddon in which they plan to storm Heaven and battle Christ himself. The Gateway Process provided a peek behind the celestial curtains, while CERN is designed to completely tear the veil and release the demonic hordes. A real-life Star Wars is coming, and everyone will be forced to pick a side.

Meanwhile, we know that gravesites continue to show MAC address emissions from the deceased COVID19 injected individuals. The nano and micro robots do not die; they continue their activity after death and continue self-assembly. Numerous videos inform you about various technologies, but tell you little about the possibilities of disabling or eliminating them, which is where any form of resistance must focus by now. The time of half-measures is over, and the greatest threat is not the nanotech, but the radiation attacks.

Satan uses the formation of three forces to affect events on earth. The Illuminati call this triad The Red Triangle. The Occult Raising of the Dead will happen due to:

- 1) The Satanic Orders on Earth;
- 2) The demons in the atmosphere;
- 3) The entities from the Underworld.

The Satanists have succeeded in creating the living undead aka zombies. Know that a real resurrection of the dead can only be done by God, and that resurrected mummies and evil resurrections are demonic and based on cause-and-effect principles, therefore they should not be considered miraculous.
